

Aspect Schools

In addition to your child’s existing school educational program, families can also access a variety of intensive individualized services including:

- Building the Foundations
- Specific Individual Therapies (Speech & Language Therapy, Occupational Therapy and Psychology).

The Aspect professionals delivering these services are part of our schools’ Learning Support Team and have an excellent knowledge of our innovative ACEA approach, and the day to day activities and needs of students with an ASD. These services are recognized for funding utilization under the Helping Children with Autism (HCWA) package, Better Start Initiative, and most recently Disability Care Australia (NDIS). Please refer to the Fees Schedule for hourly rates and package options. Service availability may vary by location.

Intensive Individualised Services Fee Schedule

| Service | Description | Fee |
|-------------------------------------|---|---|
| Building the Foundations | Is a series of 9 x 1 hour sessions provided by specialist educators and therapist based on your child's Individual Education Plan (IEP) and tailored to your family's needs, using a variety of evidence informed practices. Your child's skills will be developed so that they can be transferred across other environments. | \$180.00 per hour, or Care Package 9 sessions for \$1500 (\$167.00 per hour) |
| Individual Therapy Services: | | |
| Psychology | Focuses on the management of emotions and behaviour while developing your child's capacity to build social relationships. | \$180.00 per hour |
| Speech and Language Pathology | Focuses on maximising your child's skills and ability to communicate and interact socially. | |
| Occupational Therapy | Focuses on the child's physical skills and abilities to support their participation in everyday routines, tasks and activities. | |

To make an appointment please call your local Aspect School, or to find out more visit www.autismspectrum.org.au. Alternatively you can call 1800 Aspect (277 328).
