# User Guidelines - Introduction to our services

## Aspect provides assessments for autism across all life stages.

Aspect Assessments offers three categories of tests:

---

**Initial Assessments**

---

**Review Assessments  
(Child)**

---

**Review Assessments  
(Adult)**

A comprehensive assessment can identify developmental difficulties and determine what interventions, strategies and supports will assist someone to reach their potential.

Our assessments also include information about an individual's strengths, talents and interests so that support plans can be tailored to their particular goals and aspirations.

Autism assessments are conducted by our specialist staff who are trained in the use of gold standard assessment instruments (Autism Diagnostic Observation Schedule and Autism Diagnostic Interview).

Our autism assessments are holistic and designed to determine if someone is on the autism spectrum and provide detailed information about their adaptive functioning, strengths and support needs.

Medicare rebates are available for children under 13 (autism assessments only).

A referral from a GP, paediatrician or psychiatrist is required for an autism assessment and should be attached to the intake paperwork when submitted.

## Summary letter / Full report

As part of the assessment process, you may request a Summary Letter or a Full Report.

**A Summary Letter** includes:

- Diagnostic conclusion
- Severity Level
- General recommendations and information about support needs

**A Full Report** include additional information such as:

- Summary of family, medical and developmental history
- Summary of previous interventions
- Full record of information obtained from all assessment instruments
- Appendix outlining tailored recommendations i.e. strengths and support needs across functional areas

## Short notice cancellations

Aspect claims 100% of the agreed fee for appointment cancellations received at short notice.

A cancellation is a short notice cancellation when:

- the participant is not present for the scheduled assessment (no show)
- less than 2 business days notice of the cancellation is given to Aspect

Short notice cancellation claims are discussed and noted in the service agreement.

# Aspect Assessments' Fees
