

Back to School

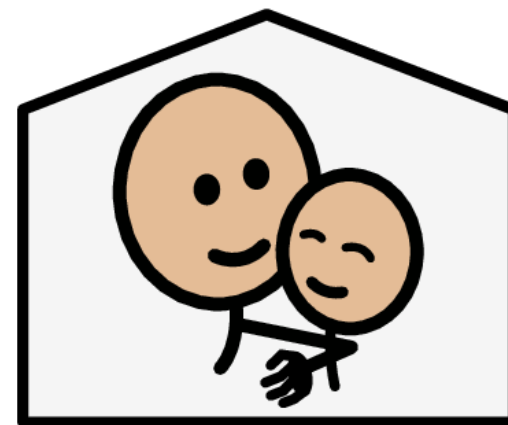

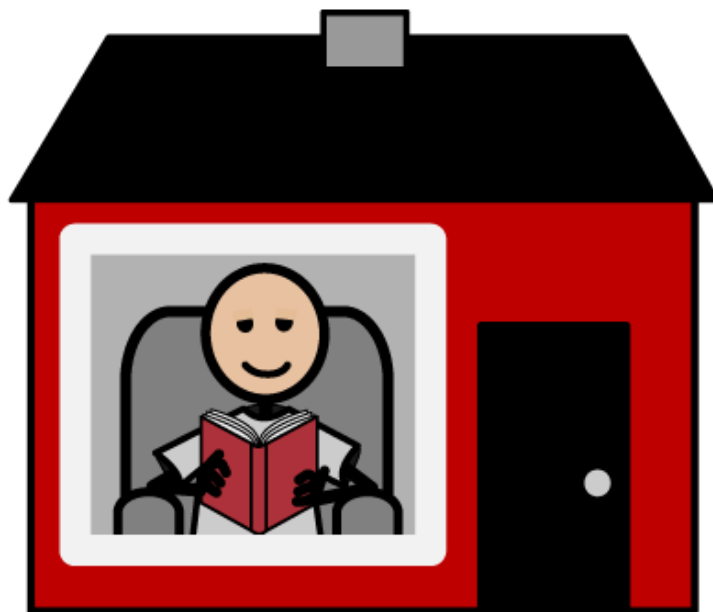

There is a virus in
Australia,
it is called 'coronavirus'. It
makes people very sick

COVID-19

I had to stay home to
keep me and my family
safe

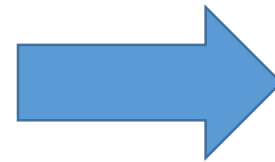

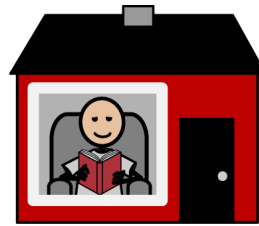

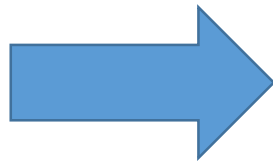

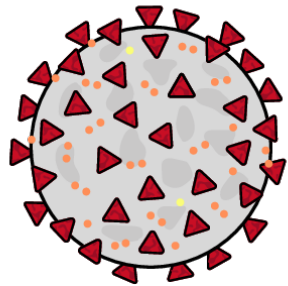

I even had to do school
work and learning at
home

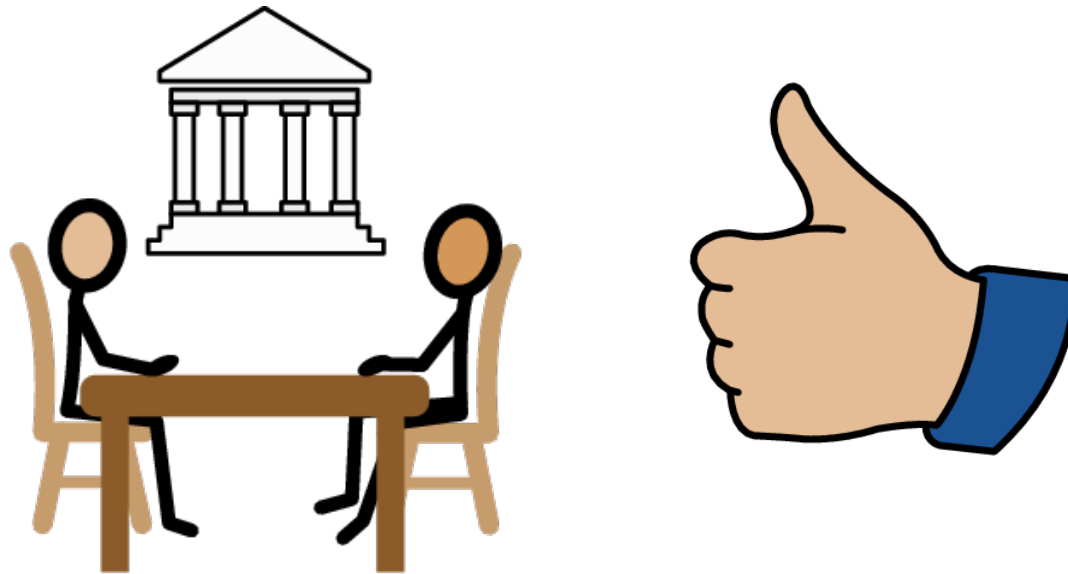

Because we stayed home,
Coronavirus in Australia is
under control

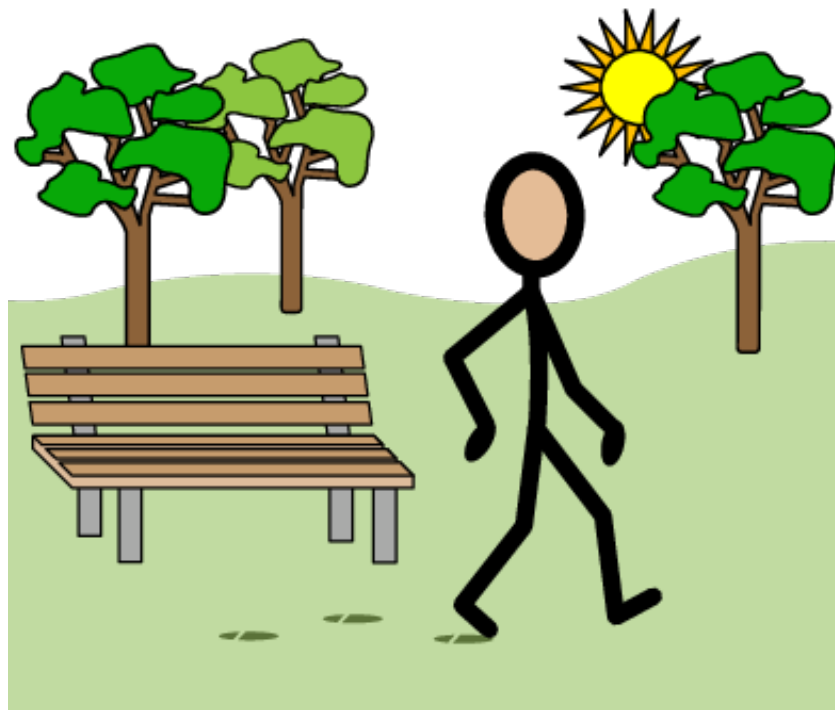

COVID-19

The government said it is
safe to do some things
again

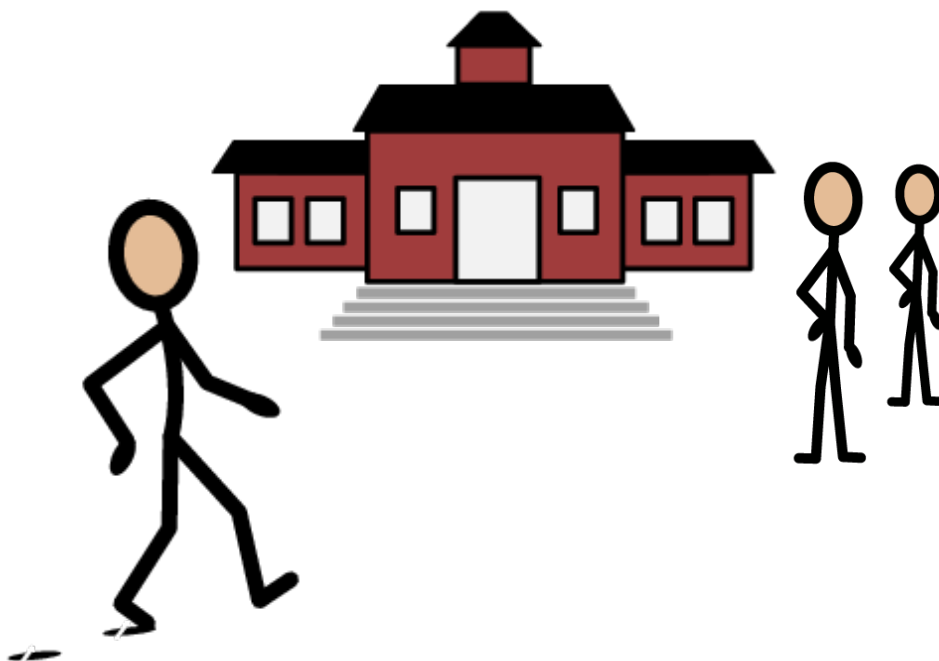

I can go for a short walk to exercise

I can go for a drive to
visit someone special

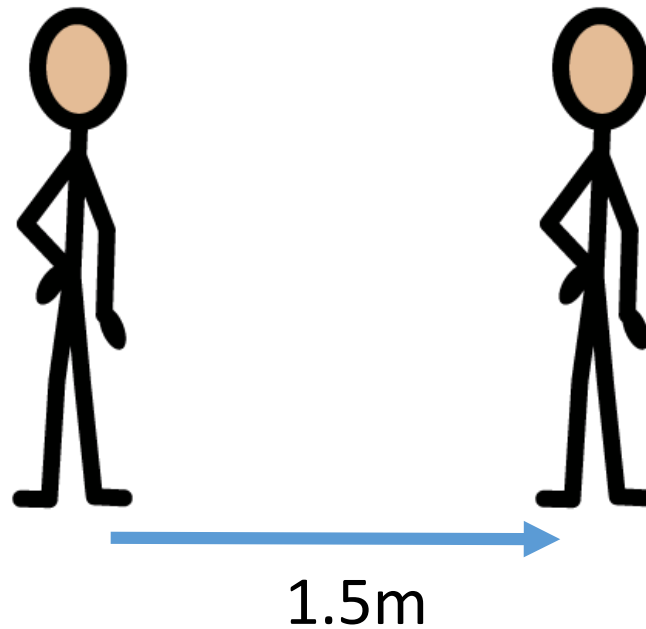

I can even go back to school

At school, I will need to
do some things to keep
me safe

I will keep a safe distance
from my friends and
teacher

I will wash my hands
when my teacher asks me
to

I will keep my hands away
from my face

I will use hand sanitiser
if I need to

If we all work together
being safe we can stay
healthy at school
