

14 October 2020

Dear Parents and Carers

### Aspect School Fee Review 2021

As you are aware this is the first year of operation for Aspect Hunter School Distance Education. The program has exceeded all of our expectations in terms of delivery and engagement in teaching and learning which has resulted in positive outcomes for students.

When the program was established we were unsure of the level of involvement between our educators and students and their families. We have realised that we do require a similar level of staff support to that of our Hunter School to provide a quality program with educators teaching small groups and individual students whilst working closely with parents/carers and onsite supervisors.

Aspect Education slightly increases school fees each year to make sure we can sustain the school program. Please find below the schedule of fees for the next three years to make sure we can continue to provide a high quality education program to students and families who enrol with Aspect Hunter School Distance Education for future years.

School Year	School Fees	Increase
2021	\$2350	\$350
2022	\$2700	\$350
2023	\$3000	\$300

If you have any questions or concerns or you foresee difficulties in paying your child's school fees please contact Lara Cheney, School Principal at [lcheney@autismspectrum.org.au](mailto:lcheney@autismspectrum.org.au) or phone the school on (02) 49225900.

Yours sincerely

Maryanne Gosling
